Education

COMPUTER SCIENCE DEGREE

University of Buenos Aires

2018-PRESENT

BACHELOR'S DEGREE

Colegio Nacional De Buenos Aires

2011-2016

About me

I'm a CS student eager to translate my academic knowledge into practical solutions. Excited to embark on my professional journey, I am seeking opportunities to apply and expand my skills in a work environment.

Experience

STUDENT REPRESENTATIVE, DEPARTMENT COUNCIL

2023

Elected as the Student Representative for the Department Council, advocating for the student body's interests and contributing to collaborative decision-making for the improvement of academic and extracurricular programs within the department.

UNIVERSITY'S OUTREACH ACTIVITIES

Focused on mathematics and computer science, I've served as an expositor of interactive puzzles at the Annual Book Fair and "Festival Matemática 4D". In addition, I have participated in my college's computer science week several times and local programming contest "TAP".

MUJERES DEL DC

2018-Present

Created a safe space for women in the computer science area at the university and participated in various activities to highlight the historical role of women in STEM fields.
